

A Legacy of Living Well.

Palliative & Hospice Care

*“Hope does not lie in a way out,
but in a way through.” - Robert Frost*

At Stonehill Communities, we proudly offer the area’s most innovative continuum of health and wellness services, including our dedicated Palliative Care and Hospice Unit.

Our goal is to provide an intimate setting where residents and families can spend quality time together. Each resident has a private room and bathroom, and the household features a welcoming common area, family lounge, and dining room. Our service is built on over a 100-year tradition of serving the community with compassion, hospitality, reverence, and stewardship.

Palliative/Hospice Care

At Stonehill Communities, our team is trained and certified by the Center to Advance Palliative Care (CAPC), the nation's leading resource for palliative care development and growth. We partner with area hospices for a hybrid collaboration that supports residents, families, and their medical providers.

Palliative Care

- Expert management of pain and other symptoms
- Emotional and spiritual support
- Close communication
- Help navigating the healthcare system
- Guidance with difficult and complex treatment choices

Hospice Care

- Provide support and care for persons with a life-limiting diagnosis so that they may live as fully and comfortably as possible
- All represented disciplines contribute to planning, problem-solving, and compassionate resident care for the right care at the right time
- Coordinate care with area Hospice organizations

3485 Windsor Ave. Dubuque, IA 52001
